ESCO

Energy

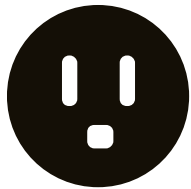

"This is a milestone in the county's progress toward energy efficiency, a great step forward," said **Board Chairman Don Stapley**. "And I think with energy and water costs rising, the payback will be even faster."

ESCO

Energy

"The goal here is a reduction of our carbon footprint, greater control and reduced energy expenses and long-term improvement to the aging infrastructure of county buildings," explained **County Manager David Smith**. "This project is a cornerstone in our Green Government Program."
