

Project Cities is a university-community partnership. Through the program, sustainability faculty and students pair with a city to co-create strategies for better environmental, economic and social balance in the places we live. Students from multiple disciplines research difficult problems chosen by the city and propose innovative sustainability solutions that enable the city to make progress toward a better future.

2017-2018 Inaugural Partner: **City of Apache Junction** Projects include:

Positively Apache Junction, a marketing and public image campaign;

- Sustainability and Solid Waste, a project addressing compliance, health hazards, and citizen's perceptions of waste;
- Off-Leash Dog Park Site Analysis, an investigation of dog park locations; and
- **Understanding Homelessness**, an exploration into the drivers of homelessness.

Benefits to Cities

 Educated workforce of sustainability scholars and scientists

•Fresh research-supported ideas for sticky municipal challenges

Lower risk in exploring sustainability pathways

•Additional student research capacity for project support

ASU Project Cities **Sustainability Through Local Action**

2018-2019 City Partner **RFP** Available until January 17, 2018
