1-2-3 Presentations: Reduce, Reuse, Recycle

Overview
Each small group will have 25 minutes to read one recent article about our waste systems, and create a 1-2-3 Presentation to share with the class.

Presentation
Each presentation should
- Summarize the article and present the key points
- Discuss how the topic of the article relates to each of the Three Pillars of Sustainability
- Provide at least one example of how the topic of the article relates to your life

Tips for making an effective slideshow presentation
Your slides should tell your story visually, while you tell your story verbally.
When it comes to text, less is more.
Think sleek and simple, not flashy and loud.

Articles
Group 1: Garbage collector creates library from rescued books
Group 2: How biodegradable are biodegradable plastics?
Group 3: Reducing food waste is key to sustainable development
Group 4: Fines for not recycling
Group 5: The pro dumpster diver
Group 6: Goodwill, not landfill
Group 7: The growing trend of zero food waste
